COURSE OBJECTIVES

COURSE OBJECTIVES	<p>At the end of the course, the students should be:</p> <ul style="list-style-type: none">• Aware of the importance of integrating artistic techniques with anatomical knowledge.• Enabled to accurately illustrate anatomical structures, enhancing their observational skills and attention to detail.• Enhanced ability to communicate complex anatomical concepts through visual representation and artistic expression.
--------------------------	---

COURSE SYLLABUS

Module	Syllabus
MODULE 1	Definition of Artful Anatomy The role of art in understanding anatomy Basics of anatomical illustration: Tools and techniques
MODULE 2	Fundamental drawing techniques for anatomical structures Proportions and perspectives in anatomical art Enhancing observational skills through drawing
MODULE 3	Using art to convey complex anatomical concepts Developing visual storytelling skills in anatomical illustration Tailoring anatomical art for diverse audiences

COURSE OUTCOME

COURSE OUTCOME	The students are expected to understand the importance of integrating art with anatomical knowledge, learn proper techniques for anatomical illustration, and effectively communicate complex anatomical concepts through visual representation. This will equip them with the skills needed to enhance their observational abilities and create educational materials for diverse audiences in real-life scenarios

Summary Report

VAC-29 Artful anatomy

This foundational course in anatomy for medical students sets the stage for understanding the intricacies of the human body through an artistic lens. It introduces students to the beauty and complexity of anatomy while emphasizing the importance of accurate representation and communication in medical practice. Led by Dr.B.I.Navin, an esteemed anatomist renowned for her expertise and passion for teaching, this course delves into basic anatomical principles and techniques, fostering an appreciation for the artistic aspects of anatomy.

Through engaging lectures and hands-on sessions, students learn to visualize and depict anatomical structures with precision and clarity. Dr.B.I.Navin is supported by a team of dedicated faculty members, including Dr.Kishan, Professor, General surgery MRIMS

The course aims to cultivate not only a deep understanding of human anatomy but also the skills necessary for effective communication with colleagues, patients, and the broader community.

The program was conducted from 26th December to 28th December, 2022 to a total of 200 medical students who were enrolled into the course
